CONTEMPORARY
GAS FIREPLACES

WHY CHOOSE REGENCY?

FIRE TRANSFORMED TO ART

My vision was to elevate the role of a fireplace beyond the heating function to a highly stylized art form for today's trend toward modern homes. I focused on clean lines crafted from unique materials and finishes. These elegant frames wrap artfully around a fire that dances evocatively from a fire bed blanketed in vibrant crystals or a seamless river of pebbles. Prepare to impress.

REGENCY QUALITY...BEAUTY THAT HEATS

For over 35 years Regency has carefully researched trends to develop fireplaces that fit your needs. A perfect combination of function and beauty; each Regency is a high efficiency heater with a beautiful view. Cut your heating bills by turning your furnace way down in most of your rooms and enjoy high efficiency, controllable heat in the living areas you spend time in. And, all Regency products operate during power outages.

LIFETIME GUARANTEE

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every Regency, that I offer a Limited Lifetime Warranty. We know that you will be as proud of your Regency Contemporary Collection Fireplace as we are – I guarantee it.

Robert Little
Founder & CEO

REGENCY ULTIMATE™ | U900E Medium Contemporary Gas Fireplace

ULTIMATE FLAME PACKAGE

The Regency Ultimate linear Gas Fireplace showcases the best-in-class flame and log package. Perfect for modern spaces and open concept living areas, clean burning heat is distributed throughout the home.

EXPANSIVE HEAT

Colder climates will benefit from the combination of intense radiant heat and extensive convective heat delivered by the built in blower. The black enamel reflective panels further accentuate the fire to create the perfect ambiance.

REGENCY REMOTE AND THERMOSTAT COMFORT CONTROL

Create optimal comfort with ease and convenience at the touch of a button with a Regency Comfort Control System. Our user friendly programmable controls can be set, adjusted and programmed for your fireplace to come on at the temperature you want when you want it. Regency control systems are available with a variety of features to suit your household home heating needs.

Accent light (On/Off)***		✓	✓	•

* Smart Thermostat - Rather than a thermostat that simply turns your fireplace on and off, the Smart Control function allows you to set your desired room temperature. As the room reaches your personal setting the flame intensity and heat will gradually decrease - keeping the ambience of your Regency fire on with less heat output with the option to turn off at any time.

** For models that have a blower.

*** For models that have an optional accent light.

MAXIMIZING COMFORT AND EFFICIENCY

Regency Fireplaces deliver controllable heating solutions by combining the latest in radiant/convection heat technology and innovative features.

- Adjustable flame/heat control
- Heat radiating ceramic glass for maximum radiant heat performance
- **SureFire Electronic Ignition** switch with battery backup features a fuel saving intermittent pilot ignition conserving energy when not in use.
- **Power's Out, Heat's On.** All Regency gas fireplaces operate without electricity. Enjoy peace of mind all winter long.

DESIGN VERSATILITY

AstroCap (painted to match home)

You can enjoy the convenience of a gas fireplace anywhere in your home with a Regency **Direct Vent Fireplace**. Regency Direct Vent Fireplaces maintain indoor air quality by drawing fresh combustion air from outside through our specialized venting system into a sealed firebox and sending the used air back outdoors.

Direct Vent Technology allows you to add a fireplace to rooms with no existing chimney. Simply vent your fireplace through an outside wall and finish it with the patented Regency **AstroCap Flex Venting System**.

DESIGN INSPIRATION

U900E shown with black contemporary door frame and surround.

HZ54E shown with safety screen, black surround and inner frame, black enamel reflective panels and black crystals.

FIREPLACE PLANNING MADE SIMPLE

Your Regency® matches your home and lifestyle perfectly. How do we know that? Because you designed it yourself!

www.regency-fire.com

1

CLICK!

Take a photo of your desired room location.

2

DESIGN

Go to www.regency-fire.com and design your perfect fireplace with the Fireplace Design Center.

3

VISUALIZE

Upload your room photo and see how the fireplace will look in your own home.

4

VISIT A REGENCY DEALER

Show your plan to one of our sales associates for expert advice. Your authorized Regency dealer will advise you on all the technical aspects and install your Regency.

5

NO CHIMNEY? NO PROBLEM!

Direct vent technology means you no longer need an expensive, elaborate chimney. Simply vent your fireplace through an outside wall and finish it with an AstroCap™.

6

ENJOY!
